

EXTERIOR STONE SIDING

NEW PRODUCT YEAR 2025

TABLE OF CONTENTS

3 EXTERIOR STONE SIDING SOLUTIONS

4 VENA CASTLEROCK STONE COLLECTION

5 VENA LIVERPOOL STONE COLLECTION

A modern two-story house with a dark, gabled roof. The exterior features a mix of materials: dark horizontal wood siding, light-colored stone veneer, and reddish-brown horizontal siding. Large windows with dark frames are visible on both levels. The house is set against a backdrop of lush green trees under a clear sky.

VENA - TITANIUM

EXTERIOR STONE SIDING SOLUTIONS

Durable and weather-resistant finishes designed to enhance the look and strength of any exterior. Available in a range of natural and manufactured stone styles, exterior stone solutions add timeless beauty, texture, and curb appeal to homes and buildings while standing up to the elements. Perfect for facades, entryways, landscaping features, and more, they combine rugged performance with lasting style.

With its chiseled texture and a combination of linear stones and solid traditional stones, the Castlerock will add prestige and elegance to your property. This model is the ideal option for creating contemporary decors, timeless and warm.

STONES

GIVE YOUR HOME THE LOOK OF LUXURY

The VENA screw-on panels is a system that is both quick and easy to install, featuring corrosion-resistant clips and robust stone panels.

The clip is designed to create a 10mm air gap between the wall and the panel to ensure optimal ventilation and effective humidity management.

DO IT YOURSELF MORTARLESS MASONRY

WHY CHOOSE VENA ?

- ✓ Easy to install with few tools required
- ✓ Affordable
- ✓ Maintenance-free
- ✓ 50 year warranty
- ✓ Can be installed in any weather

VENA SCREW-ON PANELS

GIVE YOUR HOME THE LOOK OF LUXURY

Changing the look of your property is now easy with the new VENA screw-on panels. It will quickly become a favourite for all DIY and project enthusiasts! The VENA screw-on panels is a revolutionary system that is quick and easy to install using corrosion resistant clips and stone panels. As simple as that! Enhancing your home or projects curb appeal and increasing its value has never been easier.

EASY INSTALLATION

1. Prepare – Preparing your installation surface is simple and easy. Start with covering the plywood or OSB substrate with a weather resistant barrier. Then, install the VENA starter strips at the base of the surface to be covered as well as above any openings.

2. Screw-on – Slide 2 VENA clips into the grooves on the back of the panel and screw it to the wall.

3. Appreciate – Be proud of yourself! You have just improved the look of your property and increased its value!
